**Mon responsable direct, country manager Grupo Sesé Algérie**

**Héctor Huerta Muñoz** · 1st

Grupo Sese

October 3, 2020, Héctor managed Mohamed Mounir directly

I worked together with Mounir during almost 3 years as his manager and I have to say he taught me lessons I will never forget; how to lead by example, how to create a team and how to never give up are just an example.

Mounir is always open to learn and to teach, works hard, great customer orientation and he always keeps the focus in the objective until it is achieved.

Shortly to say: It has been a big pleasure having worked with Mounir.

I worked together with Mounir almost 3 years, he was one of the key person in core team that we achieved many challenges together during the start-up of the project as every beginning is tough & an entrusted, fully committed, hard-working, continuously-developing core team is needed. It was a great pleasure to work with him and appreciated with his great effort!

During his role as Head of Logistics, with his very fast learning/developing strength; he could manage his department perfectly, very well integrated to global business environment, worked with VW Group brands and had a strong experience on Global Supply Chain of the automotive business.

Last but not least one more thing to mention about Mounir; as we discovered together as a vision for the role of departments/functions "Responding - Demanding - Leading" he could perfectly step-up his team to "Leading" level!

Mounir is one of the smartest individuals I met. His discipline and ambition are rare but his most outstanding characteristic is that he never stops learning and teaching himself.

Mounir is a natural leader, great team member and an efficient manager.

It was an honor to work with him everyday.
