What is ICM?

ICM stands for International Credit Mobility. It is an academic exchange programme funded by Erasmus+ offering students and staff the opportunity to apply to grants to perform an exchange period of studies, training or teaching at higher education institutions located in Europe and other world regions.

ICM at UC is a two-year (2018-2020) project coordinated by the University of Coimbra (UC), Portugal, gathering 18 partner universities from 13 countries across the world. There are 122 grants available for students and academic staff from UC and project partner institutions.

Grants

Grants cover subsistence, insurance and travel costs. Monthly allowances for students range from 700 to 850 EUR depending on the destination. Daily allowances for academic staff range from 112 to 180 EUR depending on the destination and duration of the mobility.
