

الجمهورية الجزائرية الديمقراطية الشعبية
Ministry de higher education and scientific research

University of Sciences and Technology
of Oran, Algeria.

Material Physics and Fluids
Laboratory –USTO-MB

***National Conference on Material Physics and Fluids (CPMF-2022)
In the prestigious city of Oran (Algeria), On December 12 to 14, 2022.***

Research areas: Electronic emission from metals

Responsible: Pr. Messaad Mohamed

Electronic emission from metals includes:

- Thermionic electron emission
- Field electron emission
- Quantum barrier transmission coefficient (tunneling coefficient)
- Thermofield electron emission current.
